

Rad: 87

Tillstånd: Dentinkaries, vuxen person med behov av särskilt stöd.

Åtgärd: Atraumatic restorative treatment (ART).

Beskrivning av tillstånd och åtgärd

Tillståndet innefattar dentinkaries hos vuxen person med behov av särskilt stöd, till exempel på grund av kognitiv svikt, funktionsnedsättning eller annan medicinsk orsak. Atraumatic restorative treatment (ART) är en alternativ metod för att behandla kariesangrepp med en exkaveringsteknik där dentinkaries tas bort genom handexkavering.

Vilken effekt har åtgärden?

Det saknas studier för att kunna bedöma effekten av ART jämfört med ingen behandling av dentinkaries hos vuxen person med behov av särskilt stöd för utfallen livskvalitet, pulpvitalitet eller apikal parodontit.

Har åtgärden några biverkningar eller oönskade effekter?

- Åtgärden innebär inga kända biverkningar eller oönskade effekter.
- Det saknas information i studierna om biverkningar eller oönskade effekter.
- Ja. [Här beskriver du eventuella biverkningar och oönskade effekter som inte är evidensgraderade.]

Vilka studier ingår i granskningen?

I granskningen ingår 0 studier.

I interventionsgruppen skulle tand med dentinkaries ha behandlats med ART och i kontrollgruppen skulle tand med dentinkaries inte ha behandlats.

- Inga pågående studier har identifierats.
- Ja. [Här beskriver du mycket kort de identifierade pågående studierna.]

Saknas någon information i studierna?

- Ingen relevant information saknas i studierna utifrån de uppställda inklusionskriterierna.
- Ja. Det saknas studier som har studerat effekten av ART jämfört med ingen behandling på effektmåten livskvalitet, pulpvitalitet eller apikal parodontit, för en vuxen person med behov av särskilt stöd.

Översikt av granskade studier

Val av litteratur

Resultat från litteratursökning från 2019-02-20 och från uppdaterad sökning 2019-11-25

| Beskrivning | Antal |
|---|-------|
| Studier som granskades på abstractnivå utifrån de uppställda kriterierna för PICO | 2 527 |
| Granskade abstract/s som bedömdes relevanta utifrån de uppställda kriterierna för PICO och granskades på fulltextnivå | 242 |
| Systematiska översikter/RCT-studier/observationsstudier som uppfyllde kriterierna för PICO och ingår i underlaget | 0 |

Litteratursökning

Denna sökning innefattar flera TÅ-rader (TÅ-38-41 samt TÅ 86–87).
